Understood. In R9 some of our doc packages were quite extensive (60 to 80K range). I use the term doc package as a way to describe the intent.

Dan - I want to clarify that the SOW with Chris at this point is not an HRS type of documentation package. It is a whole lot more. I'm not worrying about the HRS at this point.

Paula - Joe, Joe - Paula,

Joe, Paula has a non superfund, superfund site that includes many watersheds. It is the upper animas. They are working with Chris to get a doc record (part of hrs typical package) done. I have suggested that

you two chat so that she can understand Weston's qualifications for assessment and RI/FS.

My perception is that it would be quicker and better to go with the Weston/Bristol JV.

Please give her a call. She is in R8.

Thanks
